Just two words.. "♥♥♥♥en Awesome."

It's not just a game it's a experience. Have you ever had that game maby it was Breath of the Wild, Fallout 4 or Skyrim and just Think ♥♥♥♥ This is the best game i've ever played and think no game will ever match this. (mine was Breath of the wild btw) but this..., This takes the cake And it's only 99c like the ♥♥♥♥ is this dev doing he could be making bank from this.

But yeah for the price this is a steal. Would recomend.

Miss you Gnomey <3

. 5,000 clicks for 5,000 achievements. Bad game, good achievement farm.. took me 8 minutes to get 5000/5000. 11/10. here is what i did today:

bought this game cause it seemed interesting

opened it after it got downloaded

imidiently regreted it and wanting to go back while a thousand achievements pop up in my screen, over and over again

i closed the game

tried to find a memory eraser

when i finnaly did... what was i saying again?. 5000 achievements under 30 minutes. That's it.

This game does **NOT** have Trading Cards as advertised.

Garbage. Avoid it. 1/10 (for achievements). A very easy way to collect Achievements. In my oppinion it totally worths its prise!

1€ for 5000 Achievements. ^^ . How is this game still not deleted. ez pz

5k acheivment in 30 min

recommend this game for sure. For the last achievement: click atleast 10000 times

it took me less than 10 minutes to earn all 5000 achievements, and it wasn't even a fun 10 minutes.. It's everything one can expect from these types of games. 5000 Achievements with the click of the mouse button. Buy it for the achievements since there is no gameplay included.

+ point

5000 easy achievements for achievement collectors.

- point

You still have to click 5000 times.

I guess now we wait until enough sales have been made for trading cards to drop?. Achievement spam, nothing more.. idk made fun. i liek tu klik lots. very fun. Took whole 8 min to complete. And this game is so poorly coded, in game i had like 3-5k fps so i had my processor usage upto 80% just because of that. So i refunded this.
